

Slavery and Servitude

Narratives

Narrative Directions

- You will be given either a narrative by Olaudah Equiano describing his enslavement or a description of the practice of indentured servitude by Gottlieb Mittelberger.
- After reading the narrative, you will write a brief summary of the author's message.
- You will then answer sourcing and contextualizing questions about the narrative.
- Finally, after discussing the readings together as a class, you will learn the identity of both authors.
