

Name:

Progressive Era Mind Map

Essential Question: What areas did Progressives think were in need of reform?

Work in 2s or 3s. The Progressive Era Information Cards (available on the website) describe 9 Progressive Era issues. Split the issues up between you and complete the table below based on your share of the issues.

Issue Title	Problem	Reformer/s	Solution/s

Shareout: Share what you have learned with your partner/s. Make sure that you cover all 9 issues. Then look at the **Mind Map Word Bank** on the website and complete the team mind map (one copy per team).

Solo Think/Write: Which of these issues from the Progressive Movement do you think is still an issue today? Explain why and give an example of a person or movement working to fix this issue.

.....

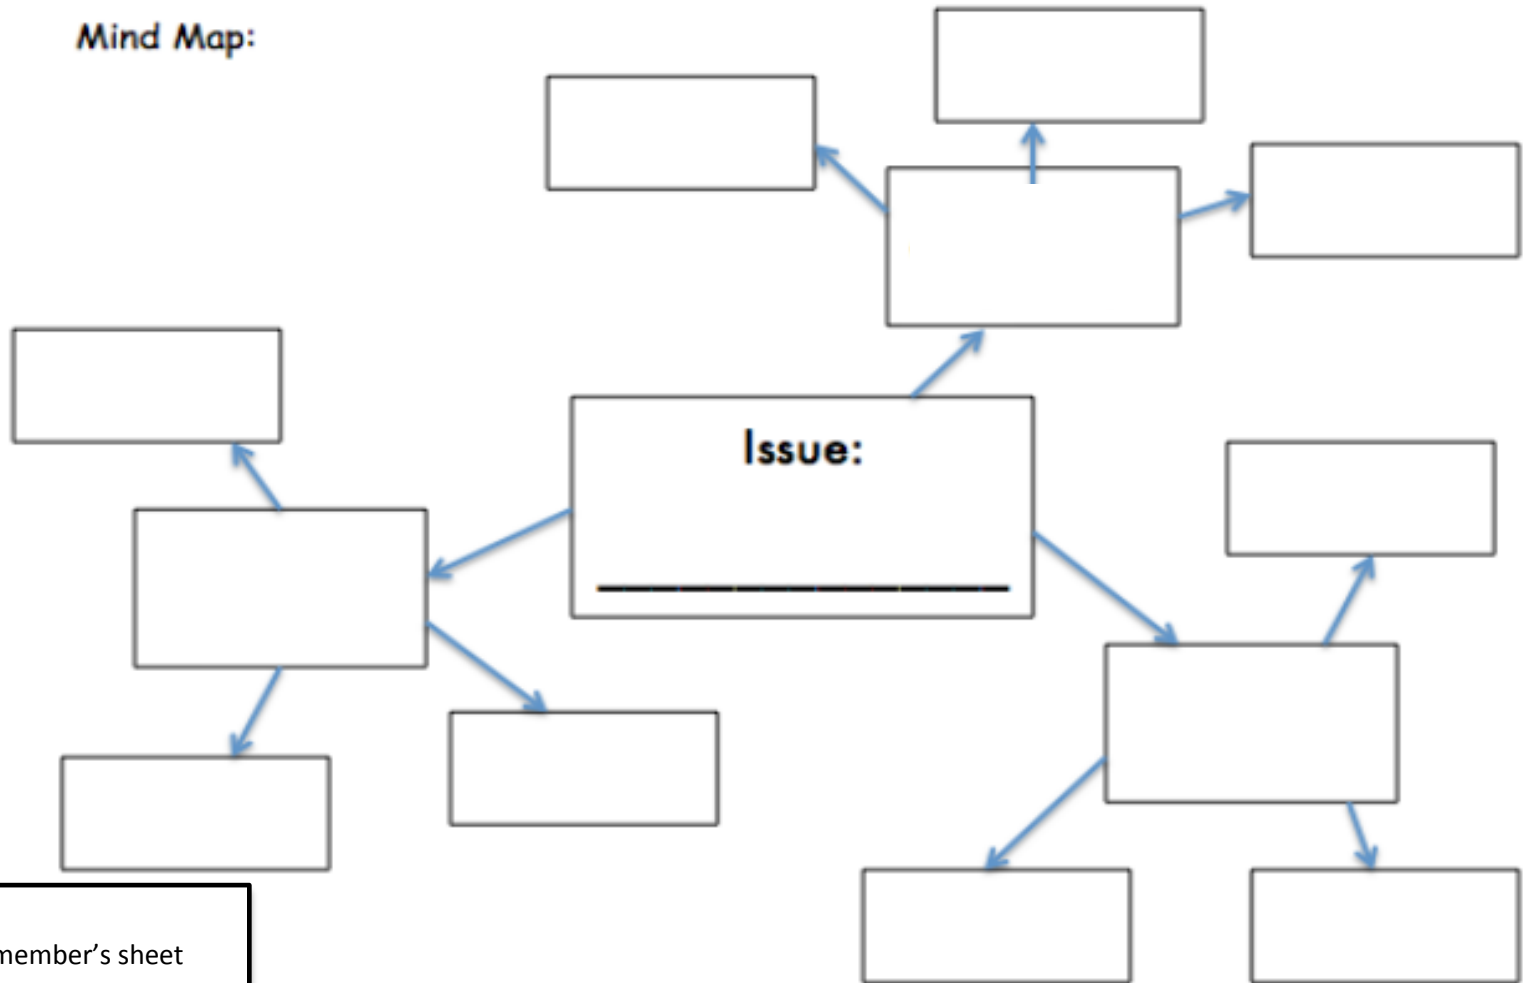

.....

.....

Personal Social Issue Mind Map:

Using the issue in the Solo Think/Write that you have identified as most important to our society today, create your own mind map to identify the issue, problems caused by that issue, modern reformers working on this issue, and ideas or opinions about solutions. *Refer to the example on the website if you're unsure about how to lay out your thoughts.*

Mind Map:

To hand in:
Please staple each team member's sheet behind the team's mind map.
