MASH-UP

1940's DECADE

You will be creating and sharing a “mash-up” to show what you have learned about the culture & music of the 1940's decade.

First you need to search for and insert a video you think will best visually represent this decade.

Next you need to search and insert a second video of a song that is from this decade and that you think best represents it (the decade).

Then think about and explain your reasoning for choosing to mash the two together.

Finally share your “mash up” with the class.
